

Idler structure designs vary widely within the industry, so PPI has adapted the shaft ends of our idler rolls to accept a variety of mounting hardware ranging from hooks, chain, and threaded rod. Having so many different mounting options available ensures PPI can retro fit our catenary idlers into most existing structures found in the market today.

FEATURES AND BENEFITS

- Multiple mounting options, including hooks, chain links, or rod ends
- Incorporates the ease of installation on catenary structure with PPI's rugged roll design and sealing system
- Available in CEMA C, D, and E
- Standard belt widths 24" - 60", others available upon request
- Steel rolls or impact rolls available
- Troughers are available in three and five roll configurations; returns are two roll
