

PPI's Spiral Urethane Rolls provide an ever changing point of contact on the belt surface that allows cleaning action without beating the belt. The spiral design is made out of urethane which promotes extended wear qualities and abrasion resistance.

FEATURES AND BENEFITS

- Urethane covering promotes longer wear life than rubber
- High abrasion resistance
- Ever changing point of contact provides quiet running without beating the belt
- Prevents material buildup
- Belt direction sensitive; One direction sheds material out and away, switch directions to provide belt training
- Available in CEMA C, D, and E in 5.5" roll diameter
- Available in CEMA C, D, E plus in 6.5" roll diameter
