

FOR IMMEDIATE RELEASE

Precision Pulley & Idler (PPI), How WE KEEP IT MOVING®

PPI is exhibiting at CONEXPO CON/AGG 2023 at booth #C31749. PPI's booth will feature industry-leading conveyor components such as the newly launched Spring Impact Roll® as well as established products such as the Pro Duty® pulley, Herringbone Wing® pulleys, and a variety of specialty idlers. PPI's booth will also highlight the unique services and support offered to customers.

PPI's Field application engineers are ready to assist with challenges including belt tracking, noise reduction, inventory recommendations, and much more. Application engineers are strategically located across the United States, Canada, and Latin America to support conveyor component needs and/or application problems quickly and efficiently.

PPI understands that in today's world, quick deliveries are critical. That's why there are service centers with manufacturing and warehousing capacity located strategically across the United States, Canada, and Latin America. Whether the product needs to be manufactured or pulled from inventory, PPI service centers are just one more advantage PPI has to ensure customers receive the quickest service possible.

Turn scrap into capital with PPI's pulley refurbishment services. PPI offers two levels of refurbishment services for used pulleys at our primary manufacturing facilities in the United States, and Canada to help extend pulley life and improve operational performance. Learn more about how PPI can save you time and money

Stop by PPI's booth #31749 in Central Hall to see the industry leaders in conveyor components and learn more about our services and support!
